Subject: Phone Call with Mike Markus

I'd like to arrange a phone call with Mike Markus and his team with some combination of you all. He is free between 11:00 and 4:00 on Monday, February 23rd, but would like to tie down a time asap. It shouldn't take more than 15 minutes. I can give you a preview if you'd like.

Thanks and please let me know what works for you.

Hi Everyone-

To follow up with all of you, EPA will be unable to participate in a meeting on February 24. We will be in touch early next week with other dates and times that work for EPA participants.

Thanks

Subject: HOLD THE DATE: Tuesday, February 24, 2015

As you may recall, we settled on Tuesday, February 24, 2015, for the RI/FS Scoping Meeting. I was informed today that the regulatory agencies would like to postpone the RI/FS Scoping Meeting, but use the same date—Tuesday, February 24, 2015—for a regulatory agency only meeting to discuss source sites and other North Basin issues. OCWD will not be participating in this meeting. I believe that EPA will take the lead for setting the time, place, and agenda. Thank you very much for your patience and flexibility.

Subject: Orange Count North Basin - EPA/OCWD/DTSC Meeting Tomorrow

Roy and Keith,

I am writing to follow up on my phone conversations with Keith over the past two weeks. I appreciate that OCWD's willingness to meet in EPA's San Francisco offices tomorrow. DTSC representatives will be attending as well.

For EPA, the primary purpose of the meeting to discuss OCWD's position on federal EPA involvement in the investigation and cleanup of the Orange County North Basin plume. There are a number of related issues that we would like to also discuss regarding what a federal lead investigation would entail and how it would be conducted.

I am attaching agenda items that EPA would like to discuss below. Time permitting we can discuss any additional matters that OCWD or DTSC would like to raise.

John Lyons
Acting Assistant Director

Site Cleanup Branch
Superfund Division, Region 9
(415) 972-3889

Agenda Items

- A) Update on DTSC, EPA, RWQCB discussions
- B) Implications of EPA as lead agency for the North Basin
- C) RI/FS Scope Issues
- D) PRPs and Enforcement Process
- E) Next Steps and Path Forward
